American Journal of Physiology: Endocrinology and Metabolism

No. 1. JULY 1985

Binding protein for vitamin D and its metabolites in rat mesenteric lymph
S. Dueland, R. Bouillon, H. Van Baelen, J. I. Pedersen, P. Helgerud, and C. A. Drevon E1

Time course of changes in gluconeogenic enzyme activities during exercise and recovery
G. L. Dohm, G. J. Kasperek, and H. A. Barakat E6

Insulin stimulation of an electrogenic pump at high extracellular potassium concentration
F.-S. Wu and K. Zierler E12

Insulin action on membrane potential and glucose uptake: effects of high potassium
K. Zierler, E. M. Rogus, R. W. Scherer, and F.-S. Wu E17

Somatomedin C augments FSH-induced differentiation of cultured rat granulosa cells
J. B. Davoren, A. J. W. Hsueh, and C. H. Li E26

Secretory patterns of glucoregulatory hormones in prehepatic circulation of dogs
A. Sirek, P. Vaitkus, K. H. Norwich, O. V. Sirek, R. H. Unger, and V. Harris E34

Relation between blood flow and morphology in islet organ of rat pancreas
N. Lifson, C. V. Lassa, and P. K. Dixit E43

Metabolic clearance of angiotensin II in pregnant and nonpregnant sheep
R. P. Naden, S. Coultrup, B. S. Arant, and C. R. Rosenfeld E49

Effects of hypophysectomy and GH administration on bovine and human GH binding to rat liver membranes
J. L. Messina, S. Edén, and J. L. Kostyo E56

Metabolic adaptation to reduced muscle blood flow. I. Enzyme and metabolite alterations
A. Elander, J.-P. Idström, T. Scherstén, and A.-C. Bylund-Fellenius E63

Metabolic adaptation to reduced muscle blood flow. II. Mechanisms and beneficial effects
A. Elander, J.-P. Idström, S. Holm, T. Scherstén, and A.-C. Bylund-Fellenius E70

Copper transport in rats involving a new plasma protein
K. C. Weiss and M. C. Linder E77

Energy dependence of lung phosphatidylcholine biosynthesis studied with CO hypoxia
A. B. Fisher, C. Dodia, and A. Chander E89

In vitro recovery of insulin binding after downregulation in cultured normal human monocytes
R. H. Whitson and S. A. Kaplan E94

Mitochondrial thermogenin content is unchanged during atrophy of BAT of fasting mice
M. Desautels E99

Human adipose tissue lipoprotein lipase: changes with feeding and relation to postheparin plasma enzyme
P.-H. Iverius and J. D. Brunzell E107

Decreases in ovine fetal cartilage sulfate uptake and serum sulfate during gestation
F. H. Morriss, Jr., R. N. Marshall, S. S. Crandell, B. J. Fitzgerald, and L. Riddle E115

Effects of [^{15}N]leucine infused at low rates on leucine metabolism in humans
P. Tessari, E. Tsalikian, W. F. Schwenk, S. L. Nissen, and M. W. Haymond E121

No. 2. AUGUST 1985

Ketone body metabolism in normal and diabetic human skeletal muscle
R. Nosadini, A. Avogaro, L. Saccà, C. Vigorito, S. de Kreutzenberg, C. Cobelli, G. Toffolo, R. Trevisan, P. Tessari, A. Tiengo, and G. Crepaldi E131

Leucine turnover and oxidation in trained rats during exercise
S. A. Henderson, A. L. Black, and G. A. Brooks E137

Decreased in vitro secretion of LH, FSH, and free α-subunits by pituitary cells from old male rats
M. R. Blackman, A. Mukherjee, P. D. Tsitouras, and S. M. Harman E145

American Journal of Physiology: Endocrinology and Metabolism

No. 1. JULY 1985

Binding protein for vitamin D and its metabolites in rat mesenteric lymph

P.-H. Iverius and J. D. Brunzell E107

Decreases in ovine fetal cartilage sulfate uptake and serum sulfate during gestation
F. H. Morriss, Jr., R. N. Marshall, S. S. Crandell, B. J. Fitzgerald, and L. Riddle E115

Effects of [^{15}N]leucine infused at low rates on leucine metabolism in humans
P. Tessari, E. Tsalikian, W. F. Schwenk, S. L. Nissen, and M. W. Haymond E121

No. 2. AUGUST 1985

Ketone body metabolism in normal and diabetic human skeletal muscle
R. Nosadini, A. Avogaro, L. Saccà, C. Vigorito, S. de Kreutzenberg, C. Cobelli, G. Toffolo, R. Trevisan, P. Tessari, A. Tiengo, and G. Crepaldi E131

Leucine turnover and oxidation in trained rats during exercise
S. A. Henderson, A. L. Black, and G. A. Brooks E137

Decreased in vitro secretion of LH, FSH, and free α-subunits by pituitary cells from old male rats
M. R. Blackman, A. Mukherjee, P. D. Tsitouras, and S. M. Harman E145

Selective insulinization of liver in conscious diabetic dogs
R. S. Spangler E152

Insulin-resistant Na^+ pump activity in adipocytes from obese humans
D. M. Mott, R. L. Clark, W. J. Andrews, and J. E. Foley E160

Synthesis and release of luteinizing hormone in vitro: manipulations of Ca^{2+} environment
T.-C. Liu and G. L. Jackson E165

Apparent decreased oxidation and turnover of leucine during infusion of medium-chain triglycerides
B. Beaufrere, P. Tessari, M. Cattalini, J. Miles, and M. W. Haymond E175

Altered carnitine metabolism in spontaneously hypertensive rats
K. A. Foster, B. O'Rourke, and D. K. Reibel E183

Cardiovascular responses to parathyroid hormone
M. F. Crass III, P. L. Moore, M. L. Strickland, P. K. T. Pang, and M. S. Citak E187

Responses and molecular heterogeneity of IR-GIP after intraduodenal glucose and fat
T. Krarup, J. J. Holst, and K. L. Larsen E195

Hypertension during chronic peripheral and central infusion of angiotensin III
G. D. Fink and C. A. Bruner E201

Regulation of iodothyronine 5′-deiodination in lean and obese (*ob/ob*) mice
F. B. Hillgartner and D. R. Romsos E209

Diurnal-stimulated and stress-induced ACTH release in rats is mediated by ventral noradrenergic bundle
A. Szafarczyk, G. Alonso, G. Ixart, F. Malaval, and I. Assenmacher E219

Hydration of fat-free body in protein-depleted patients
A. H. Beddoe, S. J. Streat, and G. L. Hill E227

Role of serotonin type 2 receptors in regulation of aldosterone production
H. Matsuoka, M. Ishii, A. Goto, and T. Sugimoto E234

No. 3. SEPTEMBER 1985

Influence of subdiaphragmatic vagotomy and brown fat sympathectomy on thermogenesis in rats
P. L. R. Andrews, N. J. Rothwell, and M. J. Stock E239

Hemorrhagic shock and the central vasopressin and opioid peptide system of rats
G. Feuerstein, C. J. Molineaux, J. G. Rosenberger, R. L. Zerbe, B. M. Cox, and A. I. Faden E244

Premature weaning-induced changes of cholesterol metabolism in guinea pigs
M. T. R. Subbiah, R. L. Yunker, A. Menkhaus, and B. Poe E251

Involvement of arachidonate metabolism in neurotensin-induced prolactin release in vitro
P. L. Canonico, C. Speciale, M. A. Sortino, and U. Scapagnini E257

Absence of albumin receptor on brain capillaries in vivo or in vitro
W. M. Pardridge, J. Eisenberg, and W. T. Cefalu E264

Effect of intragastric triglyceride administration on glucose homeostasis in newborn pigs
J.-P. Pegorier, C. Simoes-Nunes, P.-H. Duee, J. Peret, and J. Girard E268

Effects of in vivo gonadal hormone environment on in vitro hGRF-40-stimulated GH release
W. S. Evans, R. J. Krieg, E. R. Limber, D. L. Kaiser, and M. O. Thorner E276

Effect of norepinephrine on gluconeogenesis in perfused livers of cold-exposed rats
M. Shiota, T. Tanaka, and T. Sugano E281

Amniotic fluid ionic concentration in response to chronic fetal vasopressin infusion
M. G. Ross, M. G. Ervin, R. D. Leake, and D. A. Fisher E287

Binding, degradation, and biological activity of insulin in vascular smooth muscle cells
N. Kaiser, A. Tur-Sinai, M. Hasin, and E. Cerasi E292

Regulation of sympathetic activity in lean and obese Zucker (*fa/fa*) rats
D. A. York, D. Marchington, S. J. Holt, and J. Allars E299

Work performance in the iron-deficient rat: improved endurance with exercise training
M. V. Perkkiö, L. T. Jansson, S. Henderson, C. Refino, G. A. Brooks, and P. R. Dallman E306

In vivo and in vitro resistance to maximal insulin-stimulated glucose disposal in insulin deficiency
E. Dall'Aglio, H. Chang, C. B. Hollenbeck, C. E. Mondon, C. Sims, and G. M. Reaven E312

Regulation of plasma vasopressin in insulin-dependent diabetes mellitus
R. L. Zerbe, F. Vinicor, and G. L. Robertson E317

RAPID COMMUNICATIONS

Calcium channel agonist BAY k8644 enhances anterior pituitary secretion in rat and monkey
M. J. Cronin, J. M. Anderson, A. D. Rogol, D. R. Koritnik, M. O. Thorner, and W. S. Evans E326

LETTERS TO THE EDITOR

Maternal fetal glucose exchange
J. E. Wolff, W. W. Hay, Jr., G. Meschia, J. W. Sparks, and F. C. Battaglia E330

No. 4. OCTOBER 1985

Thermogenesis and BAT activity in hypophysectomized rats with and without corticotropin replacement
N. J. Rothwell and M. J. Stock E333

Calcium, cAMP, and dopamine affect single mammotrophs assayed by hemolytic plaques
J. M. Anderson, D. A. Keefer, D. D. Koritnik, T. Yasumoto, and M. J. Cronin E337

Glucocorticoid receptors in sheep brain tissues during development
J. C. Rose, T. E. Kute, and L. Winkler E345

By 94 days of gestation plasma cortisol increases block ACTH response to hypotension in lamb fetuses
B. Y. Hargrave and J. C. Rose E350

Nutritional efficiency of α-ketoisocaproate relative to leucine, assessed isotopically
C. W. Kang and M. Walser E355

Influence of training on skeletal muscle enzymatic adaptations in normal and diabetic rats
E. G. Noble and C. D. Ianuzzo E360

Evidence for a functional renin-angiotensin system in full-term fetoplacental unit
B. M. Wilkes, E. Krim, and P. F. Mento E366

Altered aortic and cremaster muscle prostaglandin synthesis in diabetic rats
T. O. Myers, E. J. Messina, A. M. Rodrigues, and M. E. Gerritsen E374

Adenohypophyseal response to hypophysiotropic hormones in male obese Zucker rats
M. L. Heiman, J. R. Porter, M. V. Nekola, W. A. Murphy, A. D. Hartman, V. A. Lance, and D. H. Coy E380

Metabolic changes during maturation of male monkeys: possible signals for onset of puberty
J. L. Cameron, D. J. Koerker, and R. A. Steiner E385

Differential effects of forskolin on LH and GH release
W. S. Evans, T. H. Brannagan, E. R. Limber, M. J. Cronin, A. D. Rogol, E. L. Hewlett, and M. O. Thorner E392

Insulin binding and glucose transport in rat skeletal muscle sarcolemmal vesicles
G. K. Grimditch, R. J. Barnard, S. A. Kaplan, and E. Sternlicht E398

MODELING METHODOLOGY FORUM

Use of residence time moments in compartmental analysis
J. H. Matis, T. E. Wehrly, and K. B. Gerald E409

SPECIAL COMMUNICATIONS

A 24-m^3 direct heat-sink calorimeter with on-line data acquisition, processing, and control
S. Jacobsen, O. Johansen, and L. Garby E416

LETTERS TO THE EDITOR

Muscle glucose oxidation
N. B. Ruderman and M. Berger; T. Ploug, H. Galbo, and E. A. Richter E433

ANNOUNCEMENTS E435

No. 5. NOVEMBER 1985

Comparison of renal and osseous binding of parathyroid hormone and hormonal fragments
M. Demay, J. Mitchell, and D. Goltzman E437

Direct effect of insulin on albumin gene expression in primary cultures of rat hepatocytes
K. E. Flaim, S. M. Hutson, C. E. Lloyd, J. M. Taylor, R. Shiman, and L. S. Jefferson E444

Effects of ovine maternal hyperglycemia of fetal regional blood flows and metabolism
